

APPENDIX I

COMMENDATION [REVISED]

This section expands and modifies the list of Commendations presented in the Core Rulebooks. Originally, a commendation merely served as “bragging rights” for a character, but provided no concrete advantage to game play. With this revised version, characters earn some Renown along with their commendation. Players who desire that their character earn more Renown than that allowed for a commendation should by the Famous Incident Advantage. Some commendations are simply so prestigious they may not be purchased using Development Points and therefore no Cost is listed for them. Commendations made/provided by the fans are marked (*).
