AMS	Assistant Master Specialist
SFC	Specialist First Class
SSC	Specialist Second Class
SP	Specialist

The "FASA STNG Officer's Manual" describes several new specialisations within the structure of trades within Starfleet; this is not, in my personal view, complete, as several disciplines are not covered, or even addressed. Weapons and ordnance, for instance, is a heavy area of specialisation for a start, as is the administrative ('paperwork') workload as well. Therefore, I have introduced new specialisations that should cover most, if not all, required general specialisations for work on board a Starfleet starship.
