

CLASS I PATROL FRIGATE

OTOMO CLASS STARSHIPS

**MISSION PROFILE**

With considerable tensions remaining between the Federation and the Klingon Empire, Starfleet turned its attention to border defense systems. To that end, Starfleet commissioned the Otomo class to serve as a 'fast response' craft, able to detect and dissuade Klingon raiding ships from crossing over into Federation space.

The class, launched with the *Otomo* and *Iwata* in 2258, almost exclusively serves at the borders of the Klingon empire. All of the ships have, at one time or another, seen action against ambitious or even reckless Klingon captains. So far, however, only two vessels have been lost in the line of duty, though three others had become so damaged they were retired rather than repaired.

NAVAL CONSTRUCTION REGISTRIES

As of yet, the Otomo class has one registration run from NCC 1652 through 1669, and also adding 1678 and 1679. The final two ships of the class are being constructed at Utopia Planitia for completion in 2271.
